Member Search

ASHA new website is dynamically generated, where the content is frequently changing (as changes are being made to any record in the database), and it is automatically being displayed on the website.

When a web server receives a request, it hands the page to the code engine, it then queries the database and builds the web page output to send back to the browser with results. Therefore, the website does not save these results, as each request is freshly generated upon request.

The searches on our website offer customized information with interactive elements, such as search criteria to filter the information specifically to your needs.

You can pull up the Member Search from various locations on our website, use the Top Navigation Bar and click on Members and then Member Search. You can also find the Member Search using the Side Navigation by clicking on the Search and from the drop down menu click on Search Members.

HELPFUL INFORMATION:

- You have to enter at least one criteria to perform a search.
- Only active members will be displayed in the results.
- Entering information into more than one criteria, will help narrow down and weed out results you don't need. The list will provide the following:
 - **Name (first and last)**
 - **Location (physical address)**
 - **Membership Type, and**
 - **Contact Information**

4083 Iron Works Parkway
Lexington, KY 40511
