World's Championship Horse Show Participants,

Many have inquired about the possibility of adding private security to stables during the 2020 World's Championship Horse Show. Security is always a top priority for us at Kentucky Venues and we wish to support attendees by allowing this request.

If you are interested in hiring private security, I recommend state approved security providers. We have arrangements with these companies that already have necessary access to our facility in addition to having required insurance on file. **See below for current state approved Kentucky State Fair Board security providers.**

Rules for hiring privately contracted security:

- Guards must be uniformed or be credentialed in a fashion that identifies their role on the property.
- Any civilian contracted security must be properly insured to perform work on state property. Guards will be asked to provide proof prior to arrival. Hired sworn peace officers are excluded from providing insurance documentation.
- Security will not be allowed to enter areas with limited access due to COVID-19 procedures without proper credentials. Credentials can be obtained through the horse show office.

Upon hiring private security please email the Kentucky Venues Executive Director of Safety and Security at shawn.hensler@kyvenues.com with the following information.

1. Owner name, phone number.
2. Location of work to be performed.
3. Security contractor's name and contact phone number.

Note: Non-Kentucky contracted security entities will be required to independently contact Security Director by email to send business insurance documentation and to arrange daily access through gates. Please provide name and phone number and we will contact you with instructions.
